- built for **professional use** and **24/7 treatments**
- FDA cleared for relieving muscular pain and aches and enhancing circulation

The Ballancer®Pro is clinically proven to speed up muscle recovery and flush the lymphatic system.

It is the leading medical grade compression therapy system across Europe.

The Ballancer®Pro covers the entire legs, hips, glutes, abdominal and groin area where the main lymphatic system is located.

treatment benefits

- based on the proven principles of manual lymphatic drainage the Ballancer®Pro is the most precise & clinically proven treatment
- it **enhances** ability to perform exercise following muscle fatigue **within only 20- 40 minutes of treatment time**
- 1 session instantly **flushes** out toxins, lactic acid and metabolic waste products from exercise and physical activity
- 1 session immediately **reduces** delayed muscle soreness and resting time before the next physical activity or work out
- **regular treatment sessions shorten healing time** after trauma or sports injury
- significantly **improves** swelling and edema
- **prevents** over-training due to the relaxing effect on the nervous system
- highly improves circulation and breaks down adhesions while **nourishing** the tissue with freshly oxygenated blood

The Ballancer®Pro can be used alone requiring no certified staff and will function as a multiplier enhancing the results of Cryotherapy, Laser, MLD, manual therapy, massage, ultrasound, RF and other treatments.

By combining these treatments or implementing the Ballancer®Pro into existing protocols the synergy effects bring significant advantages and result in maximal efficacy.
